DREADFUL ACCIDENT.

The Steamship Daphne Capsized Frightful Accident on the Rochester Immediately After Leaving the Ways at Glasgow.

Large Number of People Drowned.

A cable dispatch from Glasgow, Scotland, says the steamship Daphne tipped over on her side, capsized and sank in midstream while being launched in the Clyde. About 100 persons perished. The vessel, with upward of 200 workmen aboard, left the ways at a very rapid rate. As she gained the water she rolled from side to side. When opposite Renfrew, about five miles above this city, the human freight was seen rushing to and fro. The ship gave a furious lurch, rose clear above the water and disappeared as if by magic.

Those who had clung to floating pieces of the wreck did their utmost to save their

drowping comrades. Eye-witnesses saw a great number struggling and shrieking for help. Many were bruised and covered with blood, having been struck by the debris. Boats were pulled hard to aid in rescuing the unfortunates; many were thus saved.

A number of men at the ship's yard, on the opposite side of the river, witnessed the disaster, but were unable to render any asdisaster, but were unable to render any assistance. They immediately set to work saving the people struggling in the water. They say some of the men on the steamer jumped overboard and others were thrown overboard and that a quantity of loose fit-tings fell from the deck and crushed many unfortunates struggling in the water. A number of swimmers were visible directly after the ship capsized, but many of them were afterward seen to sink. Six men were seen clinging together. Four endeavored to climb upon the steamer as she was sinking, but were forced to desist by rush of steam from the port-hole. Some climbed upon the keel just before the ship was sub-

merged.

Many who were dashed into the water swam ashore. Several of those picked up were so exhausted that it was found necessary to remove them to hospitals.

According to the stories of witnesses and survivors, the vessel left the slip too rapidly, causing her stern, which entered first, to sink deeply in the water. She was then caught by the strong current of the river, by which, as well as her topweight, she was caused to keel over so far that the water entered her port. She had all her machinery aboard when launched. She is now ery aboard when launched. She is now completely under water. She was con-structed for coast trading, and was of 500

tons burden.
Crowds of stricken relatives lined the quays all day. Whenever a dead body was taken out and recognized heartrending cries drowned the spiash of busy oars.

A later despatch says: A diver reports that the bodies in the hold of the Daphne are so closely packed that he was unable to move them. Preparations are being made to raise the vessel. Fifty-two bodies have been recovered. It is now estimated that 150 per-sons were drowned by the sinking of the

GEN. SHERMAN'S idea of Washington recalls one of Horace Greeley's letters: "There is so much villainy going on in this place," he wrote in 1856, "that I am almost afraid to look in the glass lest I shall see the face of a

RICHARD ROWLEY, the hero, who, in the memorable fight of the Kearsarge with the Alabama, picked up a 100-pound shell from the Kearsage's deck, white the fuse was burning, and threw it overboard, was up before the Bangor Municipal Court last week on a charge of drunkenness.

FISH TALES.

A Jerseyman caught an eel in a small creek and found inside of it a sleeve-button which he had lost some years before. THERE is in Lake Tahoe an immense fish which jumps up out of the water, seizes the bowsprit of vessels in its mouth, snaps them off, and disappears.

Fish are so plentiful in the Hackensack river that they appear to be crowded for room. It is not an uncommon sight to see hem swim up alongside of boats and mute y plead to be taken in.

A LONG ISLAND angler threw in his line the other day, and fastening it to a stake went home to dinner. When he returned the weight was so great that he was compelled to call for assistance. Hauling up the catch he was surprised to find that there was only one immense catfish, but on cutting it open he discovered another fish which, when dissected, contained a smaller one that had swallowed the hook.

The Glasgow Daily Mail is responsible for the statement that, while two miners were at work taking down the coal in the splint seam at the Ferniegare colliery, at a depth of nearly 100 fathoms from the surface, a frog leaped from the face of the coal in quite a lively state. The coal, which was very hard, showed a cavity that had been the singular abode of the frog. The animal at the time of writing was still alive, but much attenuated. It measured eight inches in length.

DEATH ON THE RAIL.

and Pittsburgh Railroad.

Seven Persons Killed and Many Seriously Wounded.

[Telegram from Bradford, Pa.] About 3 o'clock this morning a coal train, with a passenger-car attached, on the Rochester and Pittsburgh railroad, broke in two while going up a steep grade near Rasselas, a few miles south of Kipzua viaduct. The severed section, consisting of seven heavilyloaded coal-cars and a passenger-coach, immediately started down the steep grade, and, while going at the frightful speed of forty miles an hour, collided with an approaching coal-train. The passenger-car was well filled, and the destruction of life and limb was appalling, seven having already died from injuries, and others fatally hurt. A relief-train with three surgeons and a number of employes of the company on board was dispatched to the scene at 5 o'clock this evening. The killed and injured were brought to this city, and as far as can be learned to this city, and as far as can be learned

their names are as follows:
S. N. Talles, aged 34, conductor, residing at Bradford; terribly mangled, died in-

David Ford, brakeman, of Bradford, had both legs broken, and fatally injured in-Mike Downs, brakeman, of Bradford, had both feet cut off, and fatally injured; died

at 4 o'clock this afternoon.

George Quinn, of Bradford, traveling salesman, died on the relief train.

Angelo Odone, an Italian laborer, was instantly killed.

W. S. Davis, of Olean, Pa., received a terrible gash on the head, and is supposed to he fatally hurt

be fatally hurt.

L. I. McKee, of Bradford, leg broken and injured about the abdomen, died at noon while being carried into his house.

Robert Clemons, of Bradford, neck broken and body badly crushed. Killed outright.

James O'Connell, of Altoona, dangerously.

Joseph Ravella, of Altoona, badly hurt, and will probably not recover.

Mrs. W. H. McCurdy and baby, of Bradford, slightly cut about the head and arms; child bruised.

John Collins, of Limestone, N. Y., badly hurt on the head.

J. Bosway had several ribs broken and severe contusions about the head.

J. Cosmillo, an Italian, leg broken in two

R. Cosmillo, a brother of the above, rib stove in and condition critical.
"Pop" Downs, engineer of the second train,
was the only one hurt in his crew. He saw the severed section approaching, and, after reversing his engine, jumped, escaping with slight bruises.

Mrs. McCurdy, who was only slightly in-jured, has made a statement in which she says that the conductor and both brakemen, who were in the car with her, were asleep. It is not yet known to whom blame is most

A NOVEL RACE.

A Boat vs. Horse Race Won by the Former After an Exciting Contest.

[Telegram from New York city.] A steel-gray horse and a skeleton wagon in which sat a determined-looking man wearing a linen duster, with a straw hat tied. under his chin, sped away from the corner of Madison avenue and Twenty-seventh street at 5 o'clock this morning. Simultaneously a catamaran sail-boat scudded into the East river from the foot of Twenty-fourth street. The race between Ezra Daggett's horse, Boston, and Frederick Hughes catamaran, Jesse, to Stony Creek, Ct., ninety miles away, for \$1,000 a side, had begun. Trainer Schenck followed Daggett in a source box square-box buggy. When the trainer pulled rein on his tired nag in front of the Huguenot Hotel in New Rochelle at 7:30 o'clock in the morning, he had the pleasure of seeing Mr. Daggett hop nimbly up behind Boston and whirl away. The owner hal in half an hour rested his horse and refreshed himself. The groom said that Boston had not turned a hair in his jaunt of eighteen miles. At 7:58 o'clock a crowd on the shore of the sound saw Jesse sail by. Two minutes later, Mr. Schenck, with a fresh horse, was pur-suing Boston. New Rochelle was excited, It had bet \$2,500 variously on the race. At 1:05 p.m. a reporter who had gone to Bridge-port by ra'l saw Boston approaching in a cloud of dust. Half of the dust belonged to Mr. Schenck's horse. Boston had come the forty-four miles from New Rochelle in six hours and three minutes. The distance of twenty-three miles between Stamford and Bridgeport was trotted in two and a quarter hours. It was a race nearly, all the way. A great crowd gathered at the stable. The wind had shifted to the south since 10 o'clock, and was now favoring the boat. At 1:46 o'clock the horses turned their heads toward New Haven. The sun was blazing down. They were soon covered with foam, but the road was fine, and they got over eight miles to Milford in thirtyeight minutes. City folks in the summer residences, who knew the New York horse was to pass their way, were out looking for it. Before the travelers reached New Haven they were almost certain that the boat was ahead of them.

A steady southerly breeze had been blo w ing for five hours, and must have carried the boat beyond New Haven, barring an accident, but they urged the horses on. It was 9:30 p. m. when Boston trotted through Water street, New Haven, past the railroad station, with ten miles yet to go to Stony Creek. He was going about six miles an hour. Here Mr. Daggett got word that he had lost the race. The catamaran had passed New Haven at 2:30. Crossing Tominson's bridge, the cool breeze from the harbor struck Boston and chilled him to the bone. He dropped into a walk, and Mr. Daggett halted under a clump of trees and rubbed him down and poured a few drops of spirits down his throat. He rallied and spun over another mile to the Four Corners House, reaching it a little after 4:30. A telephone message announcing the arrival of the catamaran at Stony Creek, greeted Mr. Daggett, here, and he rested his horse until 7, and then drove leisurely to Stony Creek, arriving there at 8:45. Time for ninety miles, fifteen hours and forty-five minutes. The horse was in good condition, and was treated to a feed of hay and bran mash. To-night he shows no signs of having covered ninety miles since morning

PERSONAL.

TUPPER, the poet, is a spiritualist. MAGGIE MITCHELL is the fourth largest land-owner at Long Branch Ir is said that Hanlan has made \$53,000 in

the last six years by rowing. OLE BULL's widow is occupying Minister Lowell's residence at Cambridge, Mass. A FARMER in Vermont is named Haydn Mozart Handel, but can't even play the jews-

John M. Cook, head of the "personally-conducted" tourist firm, has been decorated with the Medjidieh by the Khedive. Baron Rothschild's carriage is illuminated by electric light. He doesn't want to have a wheel taken off by a cab or a sleeping po-

liceman. One of the children of Charles Dickens' sister, the musical Mrs. Burnett, was the original of Paul Dombey, who is perhaps the quaintest child in fiction.

J. L. Cornin, of Cape Town, South Africa, a reporter of twenty-five years' experience, can report in short-hand accurately in five different languages—Latin, French, Spanish, Italian and English.
